### **Trump Clings to .6% Lead in 2-Way Contest Against Biden, and 1% in a 5-Way Trial Ballot Question Post Conviction**

**(Slotkin 36% - Rogers 33%)**

**LANSING, Mich.** — Former President Donald Trump (48.2%) has a narrow point six percent lead over President Joe Biden (47.6%) in a trial ballot question for President in 2024 according to the most recent Mitchell-Michigan News Source Poll of Michigan conducted on June 3, 2024, after former President Trump was found guilty of 34 criminal charges in New York. Four point two percent are undecided.

In a five-way trial ballot test Trump (46.3%) and Biden (45.1%) are separated by just one point two percent followed by Natural Law Party candidate Robert F. Kennedy (3.3%), Green Party candidate Jill Stein (0.5%) and independent Cornel West (1.1%).

“Trump’s lead has narrowed from two percent to point six percent since our last survey conducted May 20-21, 2024, before Trump’s conviction. In the May 2024 survey Trump had solidified his base better than Biden but post-conviction, Biden is doing slightly better with Democrats (95%) than Trump has with Republicans (93%). Trump has dropped from 9% to 4% with Democrats while Biden has gone from 4% of Republicans to 5%. Trump now leads with Independents 47% - 40%” Steve Mitchell president of Mitchell Research & Communications, Inc. said.

The race continues to narrow since the March 15-16 poll when Trump led by three percent in a two-way race and two percent in a 5-way race. Trump now leads by point six percent in a two-way race and one point two percent in a 5-way race.

In the US Senate race, Elissa Slotkin’s lead has narrowed from 40% – 36% against Mike Rogers to 36% -- 33%. Both candidates have dropped support from their base with Slotkin’s lead among Democrats going from 84% – 7% to 75% – 4% and Rogers lead with Republicans going from 71% –

2% to 65% – 2%. There has been a change in Independent support, Rogers now leading 32% – 30% while he trailed with Independent two weeks ago at 30–27%.

In addition to the General Election trial ballot test between the two front runners, Slotkin and Rogers, we also asked trial ballot questions in the Democratic and Republican Primary Election for US Senate.

In the Democratic Primary Slotkin (53%) has a huge lead over Hill Harper (8%) and Nasser Beydoun (1%).

In the GOP Primary Mike Rogers (28%) has a solid lead over Justin Amash (8%), Sandy Pensler (3%), and Sherry O'Donnell (0%).

“Pensler, who has spent at least three million dollars attacking Rogers still has not been able to gain any traction.”

### **Voter Enthusiasm for 2024 General Election**

- There has been a big increase in overall voter enthusiasm since the Trump conviction. However, there continues to be an enthusiasm between Republicans and Democrats, and Trump and Biden voters. Overall the percentage that says “very enthused” has increased from 56% to 74%.

By party:

- By a seven percent margin more Republicans (82%) are “very enthusiastic” than Democrats (75%). More than half of independents (45%) are “very.”
- Almost two-thirds of Trump voters (84%) are “very” compared to just half (70%) of Biden Voters.
- This could pose a real problem to Democrats in November if it stays this way.

### **Trial Ballot Questions Key Points:**

- What is the single most important issue facing the United States that will influence your vote for president?

- This is what Senator Chris Van Hollen, a Maryland Democrat, said about the verdict, “Everyone is entitled to due process, and Donald Trump had his. This guilty verdict ... against Trump makes it clear to the world that no one in the United States is above the law.” US Rep. Ted Lieu said, “No one is above the law: not the rich, not the powerful, and certainly not any former presidents.” President Trump had a fair trial, and we must respect the jury verdict.

- A CNN analyst said this, “The charges against Trump are obscure and nearly entirely unprecedented. In fact, no state prosecutor in New York ... or anywhere else has ever charged federal election laws as a direct or indirect state crime against anyone, for anything. None. Ever.” And Republican US Rep. Elise Stefanik has accused the judge of conflict of interest because his daughter is the president of a company that has raised hundreds of millions of dollars for Democrat campaigns, including Biden Harris for President. The judge also illegally contributed a small amount to the Biden campaign. Both of these are considered a conflict of interest under New York law.
